## President's Message

---

### PRESIDENT PETER MacKINNON

I wish express a very warm welcome to the graduates of our certificate programs, and their families and friends who join us today to celebrate this significant event.

Ceremonies are an important part of the life of the University, and graduation is one of the most important ceremonies of all. It is our celebration—with you and for you. It is during this ceremony that we celebrate and recognize your accomplishments and achievements and the contributions and support of your loved ones to your success. You should feel proud of this day and of the commitment and sacrifice that it represents.

Some of you are employees of the University of Saskatchewan and will therefore continue to be in touch with us. Many of you are residents of Saskatoon and the nearby community, but no matter where you are, it is my wish that each and every one of you continue to stay associated to our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you back to campus many times in the years ahead.

The University of Saskatchewan salutes you, the graduates of our certificate programs, and extends its very best wishes to you in your future endeavours.

## The Chancellor

# History of the University of Saskatchewan

College Building Construction - November, 1911 UNIVERSITY ARCHIVES A-23

The University of Saskatchewan was established by the University Act on April 3, 1907, only 18 months after Saskatchewan became a province.

The people of the province, as well as their government, were instrumental in shaping the new University. The provincial government requested all residents who were graduates of a Canadian or British university to form the first Convocation and elect the University's Senate. In 1908, the Board selected Professor Walter Charles Murray, of Dalhousie University, as the first President.

Classes in Arts and Science began in September, 1909, in downtown Saskatoon. Construction of the campus began in 1910 and the first buildings were occupied in the fall of 1912. They included the College Building (Administration Building), Saskatchewan Hall (a student residence), residences for the Dean of Agriculture and the President, a laboratory for Engineering and a number of farm buildings.

From the beginning, the university established an emphasis on research and teaching in a context of community service, and encouraged co-operation among departments and divisions in tackling common problems. The development of rust-resistant strains of wheat, for example, initiated by the University and federal and provincial research agencies, has been of untold value to the prairie economy.

In 1909, the University had 70 students and five professors, including the President. Today there are over 19,000 students studying at the U of S

The University offers many points of interest for visitors: the Diefenbaker Canada Centre, Museum of Natural Sciences, Museum of Antiquities, Biology Museum, Pharmaceutical Museum, the Observatory, the Gordon Snelgrove Gallery, the St. Thomas More Gallery, Rugby Chapel, the Little Stone Schoolhouse, the Memorial Gates, Patterson Garden and the Kenderdine Gallery.
