

A message from  
**President Peter MacKinnon**

*I want to express a very warm welcome to the graduates, families and friends who join us today. Convocation is the University's most important ceremony, for it is here that we celebrate the accomplishments of our students and the contributions of their loved ones to their success. You should be proud of this day, and of the commitment and sacrifice that it represents.*

*We at the University of Saskatchewan salute you - our graduates - and we extend to you our very best wishes for the future. We hope that you will stay in touch with us through our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you 'home' to our campus many times in the years ahead.*

*Warmest congratulations!*

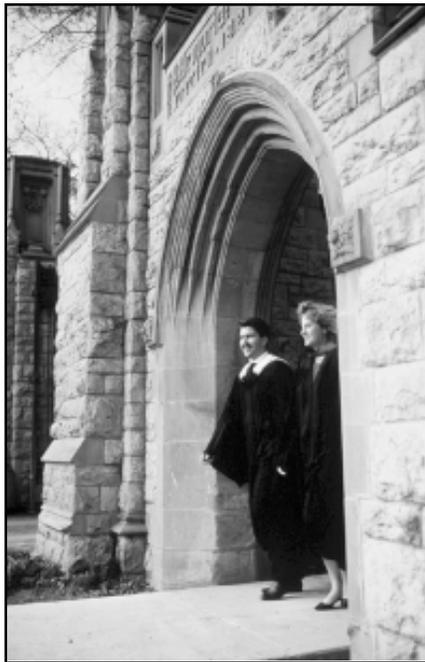

# University of Saskatchewan

## 2001 Spring Convocation

The word “Convocation” arises from the Latin “con” meaning “together,” and “vocare” meaning “to call.” Our Convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing the historical practice of calling together all former graduates. In current times, the major functions of Convocation are the election of representatives to University governing bodies and the admission of candidates to degrees. The Chancellor, elected by convocation as its Chair, is the highest official and spokesperson of the University.

The Convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges. Candidates for degrees, known as graduands, having completed the requirements of a course of study, are recommended by college faculties and the University Council to receive degrees from the University of Saskatchewan.

The ceremony, solemnized in the presence of the University community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the President’s statement to the graduands, the Secretary’s

petition and the Chancellor’s consent for their admission; followed by individual presentation by their Dean and admission by the Chancellor to the degrees to which they are entitled. As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate’s head. A banner displaying the University crest is hung above the stage, as a symbol of the University’s authority to confer degrees.

Following the conferring of degrees and acceptance of each graduate as a member of Convocation, a reception is held – a celebration on the occasion of the formal transition from the role of learner to the role of producer and contributor in the field of the graduate’s choice.

*We honour and welcome this year’s graduates!*

## The Chancellor

### Margaret (Peggy) L. McKercher

Peggy McKercher was elected chancellor of the University of Saskatchewan in July 1995. In her role as Chancellor she serves as a member of the Board of Governors and as Chair of University Senate. She also serves on the Senate Honorary Degree Committee and Chairs the Senate Executive Committee.

Mrs. McKercher is a University of Saskatchewan graduate and former faculty member. She served as University representative and Chair of the Meewasin Valley Authority in Saskatoon from 1979 to 1995. She also served as Vice-Chair of Wanuskewin Heritage Park, developed and built by Meewasin which houses a state of the art University of Saskatchewan Archaeological lab interpreting 6000 years of Plains Indian history. She is a Board member of the National Capital Commissions' Canadiana Fund and a member of the Board of Directors of the Institute for Society and Humanity. She is also a member of the Saskatchewan Arts Board and a member of the Advisory Board for the Trans Canada Trail Foundation.

Mrs. McKercher has served on the Mayor's South Downtown Task Force, the Saskatchewan Medical

Research Foundation, the Saskatchewan Order of Merit Advisory Committee, the Jeux Canada Games Board of Directors, ParticipACTION Board of Directors, Canadian Water Resources Board of Directors, and chaired the Sherbrooke Community Centre Fund Raising Campaign. She was the first woman to be elected to the Rural Municipality of Corman Park Council and served as Deputy Reeve and on numerous committees.

Mrs. McKercher was honoured as Saskatoon Citizen of the Year in 1989. Other awards include the Rosalie Early Memorial Award, the Saskatchewan Report Award for Dedication of Excellence, the Governor General's Canada 125 Award, and the Ernst and Young, Bank of Montreal Award for Socially Responsible Entrepreneur of the Year, Western Canada for 1994. On March 1, 1995 she was invested with the Order of Canada.

As a student Peggy was well known in University athletics and student government. She is a member of the Athletic Wall of Fame, University of Saskatchewan and a recipient of the Spirit of Youth Award.

Peggy's term as Chancellor ends this June.

## Honorary Doctor of Laws

### Henry Woolf

Henry Woolf has made an enormous contribution to the world of fine arts and particularly drama throughout Saskatchewan and worldwide. He is well known as an actor, director, playwright and University Professor. He has appeared in hundreds of plays, movies and TV productions. He has either acted or directed in plays in London, Paris, New York and particularly Saskatoon. His career in the theatre has spanned nearly fifty years and he is not finished yet. He is still very active in the theatre and is traveling to London for a spring production.

One of his first major plays that he acted in was *Rhinoceros* with Sir Lawrence Olivier and directed by Orson Wells in London, England. He continued his artistic career in England and Continental Europe until the mid 1970s when he took up a teaching post at the University of Alberta Drama Department. By 1983, Henry Woolf joined the Drama Department at the University of

Saskatchewan and became its head in 1995. In this role, he directed over one hundred plays.

Very soon after his arrival in Saskatoon, Henry Woolf became a founding member of *The Shakespeare on the Saskatchewan Festival*. The festival has received many awards and is a popular destination for thousands of local and international fans of the arts and theatre. In 1994, the University of Saskatchewan awarded Henry Woolf the "Master Teacher Award." He was and is a popular figure on campus and throughout the City of Saskatoon. On his retirement from the Drama Department in 1997, he was awarded the status of "Professor Emeritus." Even though he is now retired, he is very involved with the festival every summer and still finds time to act in or direct a play each summer in England. He is a popular speaker at university conferences and is a role model for the University of Saskatchewan. He is truly an entertainer who continues to bring credit to the University of Saskatchewan.

## Honorary Doctor of Laws

### Donald (Don) John Listwin

Don Listwin was born and raised in Saskatoon and attended Evan Hardy Collegiate. He entered the College of Engineering at the University of Saskatchewan in September 1976. While at university he played Huskie Volleyball in the 1976-80 seasons. When on the team the University of Saskatchewan Huskies won two Canada West titles and a CIAU National Championship in 1978/79. He graduated from the College of Engineering in 1980 with a B.E. in Electrical Engineering and he credits Mr. Jerry Huff, a professor in the College of Engineering, with introducing him to his chosen field. Upon graduation, Mr. Listwin joined Develcon Electronics Ltd. in Saskatoon, where he led the company's expansion to Silicon Valley in the early 1980s.

Throughout his career, Mr. Listwin has established a strong track record for producing results, driving exponential growth and shaping new markets both at home and abroad. He also has been recognized for aggressively pursuing and securing strategic acquisition opportunities. In 1990, after nine years with Develcon, he joined Cisco Systems, the worldwide leader in networking for the Internet. He held a variety of leadership positions during his 10 years at Cisco Systems and was eventually promoted to Executive Vice President, reporting directly to the CEO. While at Cisco Systems, he led many of the company's leading growth strategies, such as entry into IBM Internetworking, the access market, and the telecommunications service provider market. He also spearheaded Cisco's strategy to build the company's "New World" communications network, a network based entirely on Internet technology. While developing this new business

strategy, Mr. Listwin invented the concept of the Internet ecosystem, a new business model for defining success in the Internet economy.

Currently, Mr. Listwin is President and CEO of Openwave Systems, where his focus is on developing and growing Openwave, the worldwide leader of open Internet-based communication infrastructure software. Openwave is the company formed by the merger between Software.com and Phone.com, two leading telecommunications software companies. Openwave provides the software that makes the mobile Internet work. Under his leadership, Openwave has continued to grow its customer base worldwide and build shareholder value. Openwave's Canadian customers include Bell Mobility, Nortel Networks, Rogers AT&T and Telus.

His primary philanthropic activity is serving as the chairman of the Board of Directors for NetAid, an on-going, worldwide Internet-based program that empowers individuals to help eradicate poverty in developing nations. Under his direction, Cisco Systems, along with the United Nations Development Programme, founded NetAid ([www.netaid.org](http://www.netaid.org)) in 1999. NetAid is not meant simply to be a fundraiser, but rather promotes the use of the Web to end poverty throughout the world.

Mr. Listwin also serves on the Board of Directors for Openwave, JDS Uniphase, TIBCO, MarketItRight.com and Harvard University's Belfer Center for Science and International Affairs.

Don and his family reside in Los Altos Hills, California.

## Honorary Doctor of Laws

### Margaret W. Thompson

Margaret Thompson was born in Cheshire, England, and came to Saskatchewan with her family in 1926 as a six-year-old. After completing teacher training at the Saskatoon Normal School and teaching for two years in rural schools, she attended the University of Saskatchewan, graduating in 1943 with an Honours degree in Biology. She received a Ph.D. degree in Zoology, specializing in Human Genetics, from the University of Toronto in 1948.

After her graduate training, Dr. Thompson spent two years in teaching positions at the University of Western Ontario, and then moved to the University of Alberta, where she became an Assistant Professor of Zoology and a Scientific Associate of the University Hospital, Edmonton. In 1963 she joined the University of Toronto and the Hospital for Sick Children, where she reached the rank of Professor in the Department of Medical Genetics and Microbiology and the Department of Pediatrics. She is now Professor Emeritus, University of Toronto, and Honorary Consultant, Hospital for Sick Children.

Dr. Thompson's professional career has been devoted to human genetics and its relevance to childhood diseases, particularly muscular dystrophy. With her late husband Dr. James Thompson she co-authored *Genetics in Medicine*, a textbook now in its sixth edition. She is a

founding member of the Genetics Society of Canada, the Canadian College of Medical Geneticists and the American Society of Human Genetics, and is an Honorary Fellow of the American Board of Medical Genetics. She has received the Presidential Award of the Genetics Society of Canada and the Founders Award of the Canadian College of Medical Geneticists and, in 1995, was the first recipient of an Award for Excellence in Education from the American Society of Human Genetics. In 1988 she was named a Member of the Order of Canada.

The University of Saskatchewan is pleased to honour Dr. Margaret Thompson, one of our distinguished graduates.

# Master Teacher Award

## Keith Taylor

The Master Teacher Award was established to emphasize the importance of teaching at the University of Saskatchewan and to recognize and honour those faculty members who excel in teaching. The Selection Committee has named Professor Keith Taylor of the Department of Mathematics to be the recipient of this prestigious award at this Convocation. Professor Taylor earned his Bachelor of Science in Mathematics at St. Francis Xavier University in 1971 and his Ph.D. at the University of Alberta in 1976, joining the Department of Mathematics at this university in 1977. In July, 1987, he was promoted to Full Professor.

Professor Taylor is the finest example of what a university professor ought to be. He is not content to restrict his expertise to the specialties of his discipline but is eager to share his love of mathematics with all seekers. Students or scholars or laymen of any stripe, Professor Taylor meets each at just the right level to create a challenge unperturbed by discomfort.

A glance at Professor Taylor's curriculum vitae confirms his achievements as an investigative researcher. Having published over 30 papers in refereed journals, he reveals his standing among his peers by the many invited lectures he has presented all over the world. He has, moreover, been appointed or elected to several official

positions in the Canadian Mathematics Society, including Vice-President and Meeting Director.

But it is as a teacher that Professor Taylor truly excels. In his more than twenty years here, Taylor's Readiness Course provided an avenue for incoming students to raise their skills to their level courses. His sensitivity to issues of accessibility led to the development of interactive learning modules on the World Wide Web, accessed thousands of times a day.

Professor Taylor is also the faculty member responsible for the Math Help Centre. His able leadership has developed the Centre into an attractive resource for our students. His involvement with enrichment programmes in the school system has stimulated many young people, and he has worked tirelessly to raise the profile of mathematics among Native communities in the North. Yet, after all this, he modestly declares that he is only doing what any professor ought to do.

Professor Keith Taylor has shown himself to be an excellent emissary of his discipline, touching everyone he encounters with his serene fervour for mathematics. With the dedication he has displayed and the legacy he is building, the University of Saskatchewan is indeed fortunate to have such a fine teacher on its staff. He is most deserving of this honour.

# Distinguished Researcher Award

## David Christensen

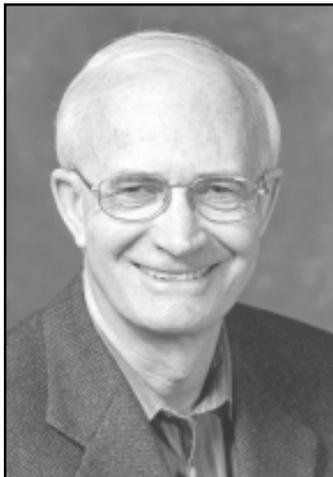

The Distinguished Researcher Award recognizes a faculty member's contribution to scholarship through the creation, expansion and critique of knowledge. The University has selected David Christensen, Professor of Animal and Poultry Science, as the Spring 2001 recipient of this award.

Professor Christensen earned a B.S.A (1958) at the University of Saskatchewan, Master of Science degree (1960) and a Ph.D. (1963) at McGill University. In 1965, he returned to the U of S as an Assistant Professor. He has been a tenured professor here since 1976, and served an 11-year term as Head of the Department of Animal and Poultry Science.

Professor Christensen is internationally recognized for his work in dairy cow nutrition and has had a significant impact on Western Canadian agriculture. Early in his career, he helped establish the Saskatchewan Feed Testing Laboratory. This initiative brought scientific nutrition information and ration formulation to the farm.

Professor Christensen was one of the first nutritionists to appreciate the extent and economic impact of trace mineral deficiencies in cattle in Western Canada. Trace mineral supplementation is now widespread, primarily as the result of a 10-year research program led by Professor Christensen.

More recently, he has been active in the development of new, high-value feedstuffs based on Saskatchewan commodities for use on Canadian farms and for export. His research is critical to the development of new export markets for Saskatchewan feed products.

Professor Christensen teaches nutrition and dairy management to undergraduate, graduate, vocational and veterinary students. Forty-one graduate students have completed graduate degrees under his supervision, and he currently supervises seven graduate students.

He has published 115 refereed articles and presented 46 major invited papers at national and international conferences, as well as over 200 invited lectures around the world.

Professor Christensen has been involved with most of the animal science producer groups in Saskatchewan and has served on the province's Advisory Committee on Animal Science. He is a Fellow of the Agricultural Institute of Canada and has received their International Recognition Award.

Among the other awards he has received is the J. W. George Ivany Internationalization Award, which Professor Christensen received for his work in bringing U of S agricultural research to the world. He has been active as a lecturer, consultant and project manager in over 20 countries in Africa, Central America, the Middle East, and Asia.

Professor Christensen excels in teaching, research, technology transfer and extension, industry and community development, and international development. He has contributed greatly to agriculture not only in Saskatchewan, but around the world and has been a highly effective international ambassador for the University and the province. He is a worthy recipient of this award.

## President's Service Award

### Grace Milashenko

In recognition of 33 years of outstanding service to students, colleagues and the U of S, Extension Division Program Co-ordinator Grace Milashenko is being honoured with the President's Service Award at Spring Convocation 2001.

Grace's nominator and a host of nomination supporters attest to what a tireless and exceptional leader she has been since she began with the University in 1968 as a secretary in the Extension Division. Her technical and administrative talents were apparent to all, and she rose within the Division to become secretary to the Director, later increasing her responsibilities as a program co-ordinator. Since 1979 she has co-ordinated the Business Administration Certificate program (BAC), and upgraded her education by completing the BAC program herself. Now, as an Administrative Co-ordinator, she oversees BAC, the Certificate in Adult and Continuing Education (CACE), the Certificate in Teaching English as a Second Language (CERTESL), the Certificate in Occupational Health and Safety (OHS), and Independent Studies.

Grace's colleagues extol her virtues: "Grace Milashenko personified what it means to give service ... She has been a leader, a part-time student, an advocate for part-time, adult, and distance learners, a defender of the disenfranchised, and a tireless worker on many boards and committees both within the University and outside of it."

Her co-workers remark that "students come first" with Grace. They also say she has been "a great ambassador to

the business community", "a delight to work with", and has "a superior intellect that she demonstrated in all the work that fell within her responsibility". "Grace's professionalism, dedication, and commitment to the University of Saskatchewan have led to the enhancement of the Extension Division programs."

Besides her main work in Extension, Grace has served the University and the community as an active executive member and former President of the U of S Administrative & Supervisory Personnel Association (ASPA), Prairie representative and newsletter editor for the Canadian Association for Distance Education (CADE), national board member of the Canadian Association for Adult Education, a lay member of the Certified General Accountants (CGA) provincial board, board member of the Canadian Cancer Society, and an active volunteer with many other organizations

such as the Saskatchewan Action Committee for the Status of Women, the Saskatoon Community Clinic, Planned Parenthood, the Northern Saskatchewan International Children's Festival, and Jeux Canada Games.

The U of S established the President's Service Award in 1995 to recognize exceptional contributions by non-academic staff. It honours individuals who have enhanced the work environment by providing extraordinary service to the University community, who have inspired, supported and respected the endeavors of others, and who have achieved this distinction through dedication and commitment.

## Governor General's Academic Medals

These medals are awarded to the undergraduate student and graduate student with the highest academic standing.

### *Jimmy Xavier Makaroff (Silver Medal)*

Jimmy Makaroff graduated from Evan Hardy Collegiate in Saskatoon in 1996. He graduated from Evan Hardy with Honours with Distinction. Jimmy enrolled in the College of Engineering in September 1996 to pursue a double degree in Electrical Engineering and Computer Science. He is graduating with a Bachelor of Science Four-year Degree with a major in Computer Science with Great Distinction and a Bachelor of Science in Electrical Engineering with Great Distinction.

Mr. Makaroff has been the recipient of numerous awards during his academic career. In High School he received the Saskatoon School Board Proficiency Scholarship in Grades 10, 11 and 12. In his graduating year he received the Governor General's Bronze Medal, awards in Mathematics, Sciences and Business Education for the student receiving the highest grades in these subject areas and the Saskatchewan Education General Proficiency Award. Jimmy was also awarded a University of Saskatchewan Entrance Scholarship.

His high scholastic record continued at University. He was awarded a University of Saskatchewan Undergraduate Scholarship three years in a row. As well, he received the following: the W.R. (Buck) Staples Scholarship, the Amoco Canada Engineering Awards, PanCanadian Petroleum Ltd. Scholarship, the Chevron Canada Resources Scholarship just to name a few.

Jimmy Makaroff has accepted a position as Software Programmer at SED Systems in Saskatoon and begins this position in June.

### *Mark Francis Tachie (Gold Medal)*

Mark Francis Tachie was born at Kpando in Ghana. He entered the University of Science and Technology in 1989 following an outstanding secondary school career at Bishop Herman Secondary School, and graduated with B.Sc. (First Class Honours) in Mechanical Engineering in 1993. He entered the University of Saskatchewan in 1996, and completed his M.Sc. in Mechanical Engineering one year later. He successfully defended his Ph.D. in November 2000. He is married to Rose-Marie, and they have a one-year old son, Sedem.

In terms of engineering research, Dr. Tachie is keenly interested in complex near-wall turbulent flows. As part of his M.Sc. program, he implemented a methodology for performing concentration measurements in quasi-two dimensional shallow turbulent wake flow using digital processing of video images of dye patterns. For his Ph.D. research, he used a state-of-the-art two-component laser Doppler anemometer to obtain comprehensive velocity measurements in smooth and rough wall turbulent boundary layers and turbulent wall jets. This research is an attempt to clarify conflicting opinions in the literature by clearly demonstrating that wall roughness in a boundary layer has profound effects on the turbulence structure outside the roughness sublayer. His Ph.D research is also the first to provide a complete rough wall data set for the turbulent wall jet. Dr. Tachie has published his research extensively, including 12 journal papers (in print or accepted for publication) and 7 papers in conference proceedings to date.

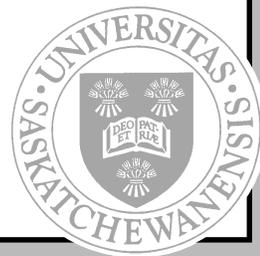

Dr. Tachie was awarded a University of Saskatchewan Graduate Scholarship (1997-1999), Natural Sciences and Engineering Research Council (NSERC) PSGB Scholarship (1999-2000), and NSERC Post-doctoral Fellowship tenable for two years. He was also the 1999 recipient of the Clarence F. Forsberg Memorial Scholarship. During his graduate program, he served as a sessional lecturer in the Department of Chemical Engineering in 1998 and in the Department of Mechanical Engineering in 2000. As part of his NSERC post-doctoral fellowship at the University of Toronto, Dr. Tachie is conducting measurements at the interface of porous media using particle image velocimetry.

John Edwin Crocker, Saskatoon  
Kinesiology – Thesis: A Comparison of Full Range  
And Limited Range of Motion Strength Training

Malcolm Scott Dean, Wetaskawin, Alberta  
Anatomy and Cell Biology – Thesis: Variation of  
Nuclear Domain Sizes Within Developing and  
Denervated Mature Skeletal Muscle Fibres

Jeffery William Dobchuk, Saskatoon  
Mechanical Engineering – Thesis: Sub-component  
Level Modeling of a Variable Displacement Axial  
Piston Pump

Charlotte Melissa Dobson, Calgary, Alberta  
Microbiology and Immunology – Thesis:  
Phylogenetic Analysis of *Lactobacillus* and  
*Pediococcus* Based on the 16S rRNA Gene, 16S-  
23S rRNA Interspacer Region, and Heat Shock 60  
Protein

Christopher Harold Eskiw, Calgary, Alberta  
Anatomy and Cell Biology – Thesis: Developmental  
Regulation of the YY1 Transcription Factor During  
*Xenopus Laevis* Oogenesis and Early  
Embryogenesis by Nucleocytoplasmic Partitioning

Sheldon Wayne Exner, Broadview  
Soil Science – Thesis: Chemical Speciation and  
Bioavailability of Selenium in Selected  
Saskatchewan Soils

Jennifer Shay Fabe, Hamilton, Ontario  
Nutrition – Thesis: The Effect of Iron Deficiency  
Anemia on the Expression of Glutathione  
Peroxidase in Rat Brain

Gerrard Flannigan, Windsor, Ontario  
Herd Medicine and Theriogenology – Thesis:  
Survey of Stereotypes and Time Budgets of  
Pregnant Mares' Urine (PMU) Ranching Industry  
Production Mares

Shannon Dawn Forrester, Canmore, Alberta  
Kinesiology – Thesis: The Physical Self in  
Adolescent Girls: Links to Smoking, Dietary

Bradley Paul Fournier, Edmonton, Alberta  
Animal and Poultry Science – Thesis: Two  
Quantitative Trait Loci for Weaning Weight Mapped  
in Beef Cattle Using Full-sib Analysis

Tara Kristin George, Atikokan, Ontario  
Toxicology Graduate Program – Thesis:  
Assessment of Pesticide Mixtures Using the  
Probabilistic Ecological Risk Assessment-Toxic  
Equivalent Combination Approach

Daljit Singh Ghotra, Calgary, Alberta  
Electrical Engineering – Thesis: Design of a  
Distance Relay Using Adaptive Data Window  
Filters

Shane Howard Griffin, Carnduff  
Mechanical Engineering – Thesis: The Creep  
Behaviour of Three Alloy Steels for Steam Turbine  
Applications

Russell Glenn Gutwin, Swift Current  
Electrical Engineering – Thesis: Adaptive  
Pre-Distortion for Laser Diodes with Direct  
Modulation Frequencies up to 1 GHz

Donald George Harbidge, Saskatoon  
Biology – Thesis: Compensatory Growth in the  
Goldfish, *Carassius auratus*

Janna Lynn Heyer, Prince George, British Columbia  
Applied Microbiology and Food Science – Thesis:  
DNA Damage, Photorepair and Survival of  
Ultraviolet Radiation Treated *Beauveria bassiana*

Dale Albert Horn, Spiritwood  
Plant Science – Thesis: Development of RAPD  
Markers for Ascochyta Blight Resistance in  
Chickpea

Christopher James Kelln, Saskatoon  
Geological Sciences – Thesis: Determination of  
Detailed Stable Isotope Profiles and  
Hydrogeologic Conditions in a Complex Clay-Rich  
Aquitard, Saskatchewan, Canada

Brian Allen Knapper, Saskatoon  
Chemical Engineering – Thesis: Experimental  
Studies of the Hydrodynamics of Fluid Bed Cokers

Nathan Amon Kotey, Mississauga, Ontario  
Mechanical Engineering – Thesis: Effects of Surface  
Roughness on the Mean Velocity Profile in a  
Turbulent Boundary Layers

Rhonda Lynn Kraus, Whitehorse, Yukon  
Management and Marketing – Thesis: An  
Investigation of Factors Influencing Consumer  
Choice Between Functionally Comparable Goods  
and Services

David Anthony Lamontagne, Calgary, Alberta  
Mechanical Engineering – Thesis: Investigations in  
Modeling a Load-Sensing Pump Using Neural  
Networks

Clifton Ronald Lee-Sing, Ottawa, Ontario  
Finance and Management Science – Thesis: Time  
Value of Decay and Rolling-Option Portfolio  
Insurance Strategies

Scott William Lipsit, Saskatoon  
Biology – Thesis: Effect of *Bacillus thuringiensis*  
Variety *Israelensis* on Blackflies (Diptera:  
Simuliidae) in the North Saskatchewan River

Ajay Makkuni, Kochi, India  
Chemical Engineering – Thesis: Phase Equilibrium  
Calculations and Precipitation Kinetics of  
Electrolyte Systems

Bradley Paul Marceniuk, Saskatoon  
Agricultural Economics – Thesis: The Role of Hog  
Production in Diversifying Investments

Troy Ashley McInnis, Chaplin  
Soil Science – Thesis: The Effect of Tillage and  
Cropping Frequency on Soil Crusting in the Brown  
Soil Zone of Saskatchewan

Angus Edward Mellish, New Perth, Prince Edward  
Island  
Plant Science – Thesis: Morphological, Agronomic,  
and Genetic Characterization of S9240 Tetraploid  
Crested Wheatgrass (*Agropyron cristatum*)

Jeffrey Tecson Pelayo, Saskatoon  
Biology – Thesis: Correlates and Consequences of  
Egg Size Variation in Wild Ruddy Ducks *Oxyura*  
*jamaicensis*

Elise Pietroniro, Montreal, Quebec  
Geography – Thesis: Impact of Media Type on  
Cartographic Communication

Donna Louise Lindsay Postnikoff, Saskatoon  
Geological Sciences – Thesis: Ecology and  
Development of *Proteokalon*, an Upper Devonian  
Aneurophytalean Progymnosperm from New York

Xuejie Qin, Mianyang Sichuan, People's Republic of China  
Computer Science – Thesis: Texture Analysis/Synthesis Using a Genetic-Based Approach

Mujeeb Ur Rahman, Saskatoon  
Mechanical Engineering – Thesis: An Integrated Approach to Design Specification Development for Redesign Problem

Muhammad Raza, Saskatoon  
Soil Science – Thesis: Boron Uptake by Canola and Distribution in Some Saskatchewan Soils

Ethan Michael Richardson, Saskatoon  
Agricultural and Bioresource Engineering – Thesis: A Comparison of Site Impacts Due to Two Forest Harvesting Systems

Rajesh Kumar Sabat, Saskatoon  
Computer Science – Thesis: Bandwidth Reduction in VOD by Cluster-Based Smoothing

Gurinder Singh Sagoo, Saskatoon  
Electrical Engineering – Thesis: On-Line Detection and Location of Low-Level Arcing Faults in Metal-Clad Electrical Equipment

Jason James Schaan, Saskatoon  
Chemical Engineering – Thesis: Pipeline Flow of Newtonian Fine Particle Slurries

Robert Jason Schimpf, Flin Flon, Manitoba  
Animal and Poultry Science – Thesis: Genetic Analysis of Carcass Traits in Beef Cattle

Natasha Faye Slobodian, Erickson, Manitoba  
Soil Science – Thesis: The Landscape-Scale Distribution of a Belowground Plant Biomass in a Fescue Prairie and a Wheat Field

Bjorn Thor Smestad, Kelowna, British Columbia  
Soil Science – Thesis: Short-Duration *Tithonia diversifolia* and *Crotalaria grahamiana* Improved Fallows for Fertility Replenishment of an Oxisol in the Highlands of Western Kenya

Yimin Song, Saskatoon  
Mechanical Engineering – Thesis: Development of Dynamic Neural Units with Control Applications

Dwayne Ray Summach, Asquith  
Animal and Poultry Science – Thesis: Performance of Beef Cattle Grazing Stockpiled Forage in South Western Saskatchewan

Dongmei Sun, Shanghai, People's Republic of China  
Nutrition – Thesis: Effect of Folate Deficiency on Polyamine Synthesis in Rats

Cynthia Lynn Swan, Saskatoon  
Obstetrics, Gynecology and Reproductive Sciences – Thesis: Regulation of Progesterone Synthesis in a Stable Porcine Granulosa Cell Line: The Role of FSH Receptors, Progesterone and Glucocorticoids

Hakibu Mohammed Tanko, Cape Coast, Ghana  
Agricultural and Bioresource Engineering – Thesis: Physical, Chemical, Drying and Storage Characteristics of Feverfew *Tanacetum parthenium* L. Leaves

Craig Francis Therens, Saskatoon  
Geological Sciences – Thesis: The Werner Lake Co-Cu-Au Deposit, Ontario: Evidence for Pre-Metamorphic Hydrothermal Origin

Debra Dora Lee Thiessen, Saskatoon  
Animal and Poultry Science – Thesis: Pea and Canola Meal Products with Thin Distillers' Solubles in Diets for Rainbow Trout *Oncorhynchus mykiss*

Ryan Keith Thompson, Carnduff  
Animal and Poultry Science – Thesis: Evaluation of  
Ammonia Treatment as a Method of Improving  
Fiber Digestion of Oat Hulls for Ruminants

John Roland Tosney, Saskatoon  
Civil Engineering – Thesis: A Design Approach for  
Large Scale Rock Slopes

Cemaine Happy Tsang, Saskatoon  
Anatomy and Cell Biology – Thesis: Chaperonin  
Expression in Cultured Glial Cells

Ehren Johannes Dirk van Melle, Shellbrook  
Electrical Engineering – Thesis: A DSP  
Implementation of a Subscriber Loop Tester

Tiaoyu Wang, Chengdu, People's Republic of China  
Biomedical Engineering – Thesis: Three  
Dimensional Modeling of the Human Femur

Susan Valerie Joan Wilson, Saskatoon  
Community Health and Epidemiology – Thesis: Hopes

### *Doctor of Philosophy*

Pawel Mieczyslaw Bartlewski, Saskatoon  
Veterinary Physiological Sciences – Thesis: The  
Relationships Between Ovarian Antral Follicle  
Dynamics, Luteal Function and Endocrine  
Variables in Ewes

Steven Charles Bharadwaj, Saskatoon  
Anatomy and Cell Biology – Thesis: The Heat Shock  
Protein 90 (HSP90) Chaperone Complex  
Regulates Heat Shock Factor 1 (HSF1) in *Xenopus  
laevis* Oocytes

Lee Brodie, Lubbock, Texas  
Curriculum Studies – Thesis: The Hermeneutic Approach to Museum Education Program Development

Stacey Dawn Broomfield, Saskatoon  
Microbiology and Immunology – Thesis: Defining Error-Free Postreplication Repair in *Saccharomyces Cerevisiae*

Marcelo Renato Alves de Araújo, Fortaleza-Ce, Brazil  
Plant Science – Thesis: Variation and Heritability in Meadow Bromegrass (*Bromus riparius* REHM.)

Pramod Dhakal, Baglung, Nepal  
Electrical Engineering – Thesis: Computer Aided Design of Substation Switching Schemes

Debra Lynn Dudek, Winnipeg, Manitoba  
English – Thesis: Creative Displacement and Corporeal Defiance: Canadian Feminist Modernism in Margaret Laurence's Manawaka Novels

Md. Hasan Shahid Ferdous, Saskatoon  
Geological Sciences – Thesis: Regional Sedimentology and Diagenesis of the Middle Bakken Member: Implications for Reservoir Rock Distribution in Southern Saskatchewan

Karla Lee Guyn, Lockport, Manitoba  
Biology – Thesis: Breeding Ecology of Northern Pintails: Nesting Ecology, Nest-Site Selection, Nutrient Reserve Use And Brood Ecology

Todd Michael Hryciw, Saskatoon  
Microbiology and Immunology – Thesis: MMS1 and The Repair of Replication-Dependent DNA Damage in *Saccharomyces cerevisiae*

Nahed A.M. Ismail, Saskatoon  
Microbiology and Immunology – Thesis: Analysis of the Decision Criterion Controlling the Th1/Th2 Nature of a Primary Immune Response

Jerry Bruce Jellis, Windsor, Ontario  
Psychology – Thesis: Attachment Style, Working Models of Sexuality, and Their Relation to Safer Sex Behaviour in Young Adults

Mahdi Kadivar, Isfahan, Iran  
Applied Microbiology and Food Science – Thesis: Studies on Integrated Processes for the Recovery of Mucilage, Hull, Oil and Protein From Solin (Low Linolenic Acid Flax)

Beverly Anne Kidney, Saskatoon  
Veterinary Pathology – Thesis: Investigation of Potential Viral Etiologies in the Pathogenesis of Feline Vaccine Site-Associated Sarcomas

Arul Kumaran, Madras, India  
English – Thesis: Print, Patronage, and the Satiric Pamphlet: The Death of Robert Greene as a Defining Textual Moment

Siroos Mahfoozi, Saskatoon  
Plant Science – Thesis: Developmental Regulation of Cold Hardiness in Cereals

Stavroula Malla, Saskatoon  
Agricultural Economics – Thesis: Searching for Genes: Public and Private Spillovers in Agricultural Research

Margaret Kathleen Martin, Saskatoon  
English – Thesis: Discovering Lily Lewis: A Canadian Journalist and New Woman

James Alfred Nieuwenhuis, Calgary, Alberta  
Psychology – Thesis: Formations, Ruptures, Rebounds, and Repairs: An Intensive Investigation of Changes in the Therapeutic Relationship

Punam Pahwa, Saskatoon  
Medicine – Thesis: Statistical Modelling of Longitudinal Lung Function Data

Sanaa Mohamed Ragae, Saskatoon  
Applied Microbiology and Food Science  
– Thesis: Physicochemical and Structural  
Characteristics of Water-Extractable Arabinoxylan  
From Rye Lines Varying in Extract Viscosity and  
Its Relationship to End-Use Characteristics

Philip Scott Ronald, Portage La Prairie, Manitoba  
Plant Science – Thesis: Variability and Mechanism  
of Saskatoon Disease Response to  
*Entomosporium mespili*

Henry Wakayenga Soita, Bungoma, Kenya  
Animal and Poultry Science – Thesis: The Influence  
of Forage Particle Size on Rumen Metabolic  
Responses and Nutrient Utilization

Noor Afshan Syed, Saskatoon  
Biochemistry – Thesis: Regulation of Glycogen  
Synthase and Glycogen Phosphorylase by Insulin  
in HepG2 Cells

Mark Francis Tachie, Saskatoon  
Mechanical Engineering – Thesis: Open Channel  
Turbulent Boundary Layers and Wall Jets on  
Rough Surfaces

Weiwei Tan, Chengdu, People's Republic of China  
Pharmacy – Thesis: Roles of Amino Acids in the  
Food Effect: Metabolic and Pharmacokinetic  
Studies on Propafenone and Metoprolol

Angela Maria Thompson, Saskatoon  
Kinesiology – Thesis: Physical Activity from  
Childhood and Adolescence to Adulthood  
– A Longitudinal Analysis

Kim Tieu, Saskatoon  
Psychiatry – Thesis: Involvement of BCL-2 and p53  
Genes in the Survival of Human  
Catecholaminergic Neuroblastoma SH-SY5Y Cells

Nian Dong Wang, Shanghai, People's Republic of  
China  
Environmental Engineering – Thesis: Experimental  
Study and Mathematical Modeling of Enhanced  
Biological Phosphorus Removal Using Glucose as  
the Dominant Substrate

Jon Martin Watts, Saskatoon  
Herd Medicine and Theriogenology – Thesis: Vocal  
Behaviour as an Indicator of Welfare in Cattle

Ronggui Wu, Saskatoon  
Soil Science – Thesis: The Effect of Land Use on  
Soil Fertility and Phosphorus Dynamics in  
Sub-Alpine Grassland Soils of Gansu, China

Dajiang Zhang, Saskatoon  
Psychiatry – Thesis: Anti-apoptotic Actions of  
R-2HMP in CGCs; Changes of Mitochondrial  
Membrane Potential and Sub-cellular GAPDH  
Protein

## Awards to Graduating Students

### Education

Saskatchewan Teachers' Federation Prize to Brenda Gail Epp  
Victoria Minor's Award to Ruth Ann Ellen Ginther

### Law

Law Society of Saskatchewan Gold Medal to Jordan Reagan McJannet  
Law Society of Saskatchewan Silver Medal to Jeremy Frederick deBeer  
Law Society of Saskatchewan Bronze Medal to Catrina Marion Card  
Thomas Dowrick Brown Prize to Jordan Reagan McJannet  
The Honourable Donald Alexander McNiven Prize to Melodi Ann Kujawa  
Saskatoon Bar Association Prize to Karen Alison Andreychuk  
Douglas A. Schmeiser Prize in Constitutional Law to Karen Alison Andreychuk  
Canada Law Book Company Prize to Catrina Marion Card  
Fraser Milner Prize in Business Organizations to Carla Marie Carlson  
Saskatchewan Trial Lawyers' Association Prize to Ryan Neal Claxton  
Fraser Milner Prize in Business Organizations to Jeremy Frederick deBeer  
Durward Thomas Prize in Civil Procedure to Jeremy Frederick deBeer  
Law Society of Saskatchewan Prize in Professional Responsibility to Megan Denise Dolo  
C.H.J. Burrows, Q.C. Prize to Arthur Paul Frank  
Foster Prize in Human Rights to Sonya Diane Guiboche  
Gabe Burkart Memorial Award to Sonya Diane Guiboche

Gabe Burkart Memorial Award to Erin Kathleen Haupt  
Goldenberg Prize in Taxation to Melodi Ann Kujawa  
Law Society of Saskatchewan Prize in Professional Responsibility to Andrea Vanessa Leaman-Argue  
Fraser Milner Prize in Business Organizations to Jordan Reagan McJannet  
Thomas P. Deis Prize in Constitutional Law to Jordan Reagan McJannet

# History of the University of Saskatchewan

The University of Saskatchewan was established by the University Act on April 3, 1907, only 18 months after Saskatchewan became a province.

The people of the province, as well as their government, were instrumental in shaping the new University. The provincial government requested all residents who were graduates of a Canadian or British university to form the first Convocation and elect the University's Senate. The Senate, in turn, elected five members to the first Board of Governors, while the province appointed three. In 1908, the Board selected Professor Walter Charles Murray, of Dalhousie University, as the first President.

Classes in Arts and Science began in September, 1909, in downtown Saskatoon. Construction of the campus began in 1910 and the first buildings were occupied in the fall of 1912. They included the College Building (Administration Building), Saskatchewan Hall (a student residence), residences for the Dean of Agriculture and the President, a laboratory for Engineering, and a number of farm buildings.

From the beginning, the University established an emphasis on research and teaching in a context of community service, and encouraged co-operation among departments and divisions in tackling common problems. The development of rust-resistant strains of wheat, for example, initiated by the University and federal and provincial research agencies, has been of untold value to the prairie economy.

In 1909, the University had 70 students and 5 professors, including the President. Today there are over 18,000 students studying in 13 colleges and 1 school. This is the only university in Canada with five health-science colleges and a major teaching hospital on the same campus. The University offers Spring and Summer Session, Evening Courses, Independent Studies courses and Distance Education as well as on-campus daytime courses.

The University of Saskatchewan overlooks the South Saskatchewan River from a 755 hectare site. The campus consists of 147 hectares with the remaining being a research park, the University farm and experimental plots.

Most early buildings on campus are Collegiate Gothic in style and are constructed in a local dolomite, popularly known as greystone. Subsequently constructed buildings also have greystone, as well as Tyndall stone (pre-cut slabs quarried in Tyndall, Manitoba), concrete, brick, glass and aggregate facings.

The University offers many points of interest for visitors: the Diefenbaker Canada Centre, Museum of Natural Sciences, Museum of Antiquities, Biology Museum, Pharmaceutical Museum, the Observatory, the Gordon Snelgrove Gallery, the St. Thomas More Gallery, Rugby Chapel, the Little Stone Schoolhouse, the Memorial Gates, Patterson Garden, and the Kenderdine Gallery.
